BW, RL,

Who do not know each other,

I have mislaid what should never have been mine, Bishop on JFK.

And, dubious a source as he is, the only other being Manchester, who tends to make Bishop a bit respectable, I wants to quote one thing from him, Burkley on the autopsy at Bethesda, a bended-knee explanation to Jackie on what was once AF-1 returning to DC.

I suspect both of you have it. I'd appreciate a copy of just those words, please, and the explanation that the autopsy should be at Bethesda was Jackie's agreement.

If either can supply, please include in mail addition. I presume the page(s) will show.

Hope not too much trouble. I'm at that point in writing now and embarrassed that the trash seems to have been loaned.

Either go of you know a better source?

Thanks,
HM
